INLINGUA

inlingua Como is part of inlingua International Schools of Languages, with more than 400 language schools in 40 countries around the world. The inlingua method of learning languages is the result of 50 years of experience. Over 500,000 students learn languages with us every year.

- Since inlingua was founded in 1968, it has grown to become one of the largest and most successful language organizations in the world.
- inlingua is constantly developing new concepts to meet the ever-changing needs of clients in all markets and to ensure that we are up to date with modern teaching and learning techniques and technologies.
- The inlingua Pedagogical Team in Bern, Switzerland, produces a wide range of teaching materials, written to be used with the inlingua method. The key features of the inlingua method and materials are an emphasis on oral communication; a carefully programed building block progression of language, where new items are always taught using known ones; a high level of student participation; and systematic, comprehensive language practice. All this adds up to effective language courses and a correspondingly high degree of fluency development in our students in a very short time.

There are many stores and shops which sell silk foulards, ties, and clothes at extremely discounted prices. Milan is the pinnacle for designer shopping lovers! Gianni Versace, Miucca Prada, Giorgio Armani and Dolce & Gabbana all started their careers in Milan.

WINING AND DINING OR JUST RELAXING

If eating, drinking and being merry is more your style we can arrange cooking classes, wine tasting, grappa tasting, cheese tasting or even olive oil tasting all from the local producers along the lake and surrounding Area. MUSEUM AND MONUMENTS

The Volta Temple is a museum dedicated to the inventor of the electric battery, Alessandro Volta. Museo Didattico della Seta (Silk Museum) documents the history of the silk industry in Como. COURSES (online or at school)

FFP (Flexible frequency Program) – individual courses

Individual, one-to-one, training is the most efficient way to learn a language. With the exclusive attention of your trainer you have the opportunity to progress at your own pace. More importantly the course can be adapted and tailored to your individual needs and focus on specific language skills and vocabulary that are or will be important to you in your job. If you cannot attend a rapid, full-time training course, FFP course is perfect for you. FFP courses start any day.

CELI – CERTIFICAZIONE ITALIANO GENERALE

Inlingua Como is a "CELI exam" center since 2005.
The CELI exams certify the linguistic competence for Italian for foreigners and are managed by the **University of Perugia.**
CELI exams are available for all levels and are structured to test all 4 language skills: reading comprehension, writing, speaking and listening.
These exams can be taken at our inlingua Como school in the sessions established by the University of Perugia.

The Certificate of Knowledge of Italian Language (CELI) is an Italian language proficiency certificate that ratifies competences and language skills. It can be used in the work field or for study purposes. It is possible to choose from CELI for immigrants and CELI for adolescents. The main difference is the content of the texts and types of tasks to be completed during the test. These tests follow the same levels of the QCER and share the same verification methods and strict certification processes. The Ministero del Lavoro e delle Politiche Sociali recognizes the CELI certificate in the context of immigration and favors its diffusion to promote the knowledge of Italian language among immigrants legally residing in Italy.
