TWO OF OUR MOST REQUESTED ENGLISH EXAM PREPARATION COURSES

TOEFL (Test of English as a Foreign Language)

Who takes the test?

People who are not native speakers of English will take the TOEFL if they plan to attend an undergraduate school in the United States, Canada, the United Kingdom, or in a country where English is the language of instruction. Most schools in these countries require TOEFL scores from foreign applicants. According to TOEFL administrators, in the years 1995-1996 approximately 884 000 people registered to take the examination.

What is the test used for?

The Test Of English as a Foreign Language is used to measure your verbal skill in English, as well as your understanding of spoken English. It is used at over 2300 colleges and universities in the U.S. and Canada as an admission requirement for non-native speakers of English, and may also be used for academic placement. Often, educational institutions will also use the scores to determine eligibility for scholarships and other forms of financial aid. The TOEFL is also used as a means of evaluating English proficiency by many government agencies and licensing boards.

TOEIC (Test of English for International Communication)

What is TOEIC?

TOEIC is designed specifically to test one's ability in English as it is used in real-life situations in business and government. TOEIC differs from the traditional academic testing of English grammar rules and literature. TOEIC is a 200-item, multiple-choice test. It consists of 100 listening items, administered by audiotape, and 100 reading items. It takes about two hours to complete. TOEIC is a powerful tool. There is no passing score. Scores range from 10 (no knowledge of English) to 990 (professional proficiency). Separate sub scores from 5 to 495 are provided for listening and reading.

What is TOEIC used for?

- **Assessing the level of proficiency upon entry into a language-training program:** TOEIC helps determine the appropriate starting level of instruction for participants in language training.
- **Measuring progress during language training:** Progress can be assessed throughout the training period by regular TOEIC testing, provided TOEIC is taken upon entry to a language program.
- **As evidence of proficiency:** TOEIC offers students proof of their proficiency in English. TOEIC scores can be used to inform employers of an examinee's ability to work in English.

ABOUT THE COURSE

Preparation courses are designed to prepare you for the types of questions you can expect to see when taking the actual test. It will also improve your listening skills, and build your vocabulary. After this course you will have an accurate and complete understanding of the exam.

RATES

In Canadian dollars, per person

N° 1 + 2a COMBINED PROGRAM – group course + private tutoring

RATES WITHOUT LODGING AND BOOKS

Preparation for exams or special needs: For students who are preparing to take language examinations such as TOEFL, TOEIC, Cambridge. Also for students who wish to learn more specific English vocabulary for work or other purposes.

The student takes the group class of his choice (15-25-30 hours per week) plus the number of hours of his/her choice in private class.

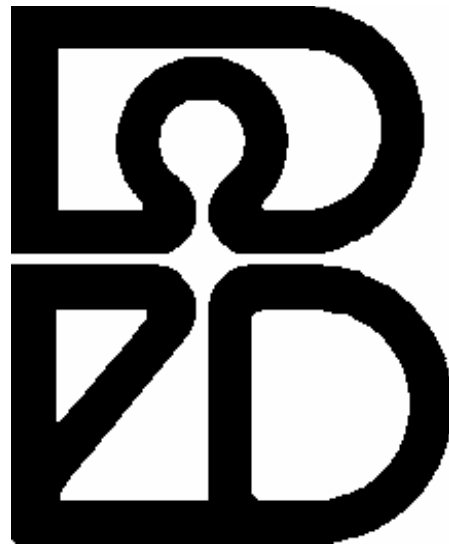

The rate will be calculated by adding the number of weeks in the group course chosen and the number of hours of private tutorial requested per week.
