Salamanca

Situated in the west of Spain, Salamanca is just 200 kms. from Madrid with a population of 160,000 inhabitants. Salamanca, World Heritage City since 1988, is a university city with great appeal for students, which makes it ideal to learn the Spanish Language.

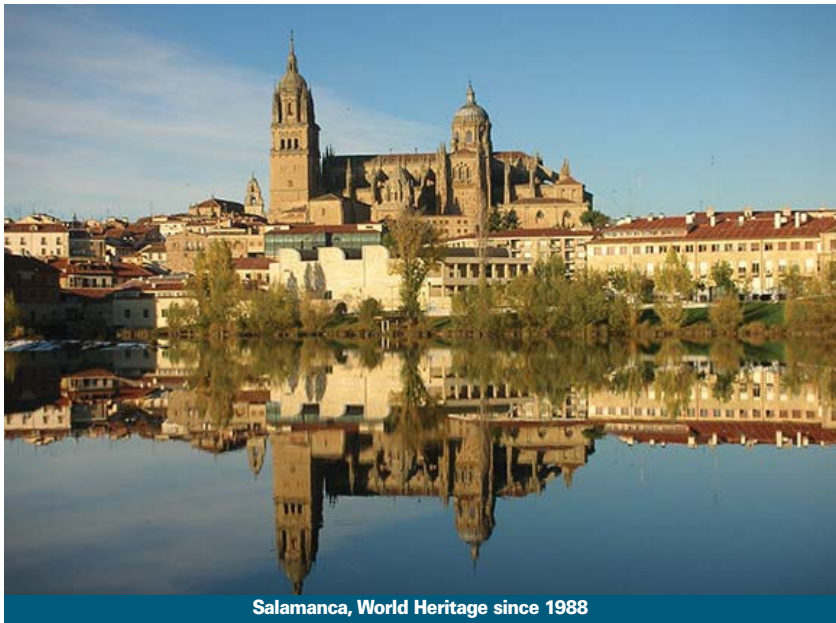

The two closest international airports are Barajas (Madrid) and Villanubla (Valladolid).

From Madrid or Valladolid to Salamanca, the trip can either be made by bus: (www.avanzabus.com) or by train (*Estación de Chamartín, Madrid*; www.renfe.es).

A pick-up service (transfer) from the airport can be arranged through the Administration of the school.

• The Colegio de España was founded in 1973 in Salamanca as an Academic Institution with highly qualified teachers, whose primary aim is to teach Spanish Language and Culture to foreign students.

• The Colegio de España is member of **FEDELE** (Federación Española de Centros de Enseñanza del Español), of **A.I.T.I.P.E.** (Asociación Internacional de Traductores, Intérpretes y Profesores de Español), and of **A.E.E.C.y L.** (Asociación de Escuelas de Español de Castilla y León).

• The Colegio de España in Salamanca was granted the seal of quality in Spanish Language Teaching as a Foreign Language for the sixth time, conferred by the University of Alcalá de Henares (**CEELE**), and has been recognized as "Centro Acreditado por

el **Instituto Cervantes**" for the third time. From Languagecourse.net we received the **Excellence Award**.

• It features a **Publishing House "Ambos Mundos"** with several branches and a Department of Cultural Activities.

The renowned professionalism of its highly trained and fully qualified teachers, the variety of its academic programs (its programs have been approved by numerous foreign universities), the teachers' skills and experience in the classroom, the excellent quality-price ratio together with its family atmosphere, have made the Colegio de España one of the most prestigious international schools for Spanish Language Teaching.

Management, Teaching Staff and Administration

Dear Students,

In name of the Teaching and Administration Staff, we wish to give you a warm WELCOME to the Colegio de España and to the beautiful city of Salamanca.

We wish that your stay with us will be pleasant and rewarding, that you will be able to improve your knowledge of the Spanish Language and Culture and that you enjoy the activities that both the Colegio and the city offer you.

Always keep in mind that for the Colegio, you, the students, are the most important, and that, even though the Colegio earned its fame for its academic seriousness and rigor, our principal wish is that you do not only consider the school as a Study Centre, but also as YOUR HOME and don't forget we are always at your service.

We wish to thank all of you for having chosen the Colegio de España to study, and a special reminder for those students who since 1973 have passed through our classrooms, for those who have returned once again to our school and, of course, thank you very much to all Universities, Colleges and Institutions that have maintained their programs with the Colegio de España over these many years.

Yours sincerely,

SOUTHERN CONNECTICUT STATE UNIVERSITY

I would like to say that since the summer of 1994 our institution, Southern Connecticut State University, has regularly taken part in the summer courses organized by the Colegio de España.

The excellent quality of its Language and Civilization Courses along with the pleasant and cosy atmosphere it provides, its helpful staff and the fact that it has its own Publishing Department have turned the Colegio de España into one of the most prestigious international centres dedicated to the teaching of Spanish as a Foreign Language.

SAINT BONAVENTURE UNIVERSITY (New York)

Since many years our university has established a program with the Colegio de España. From an academic point of view, as always, the Colegio de España (...) stands out for its excellent academic structure in all aspects, as far as Spanish Language and Culture Teaching is concerned (...) The courses stand out for the excel-

lence and dedication of its teaching staff. Classes are structured with a great variety of activities (...) All these essential ingredients are entwined with contemporary cultural segments and with interesting conversation topics in the different levels (...)

(...) The teachers are creative, always informed about the latest news on Language Teaching, full of energy, they attend conferences y professional seminars, and, above all, they offer a good atmosphere in class with their great patience and sense of humour to motivate the students (...)

(...) The program at the Colegio de España has something special: students enjoy very much the extra-curricular activities and their variety (not only the most playful ones such as the sports activities, dinners, etc, but also the cultural trips, movie cycles, tours of the city, etc, which are essential for our program).

(...) For our students the program is a unique educational experience (...) Many of my students have returned to the Colegio de España to continue their students during the next summer or the academic year (...)

(...) The value of the school building as well as its location is extraordinary (...) we recall the Spain of the Golden Age and my students are enchanted by the structure and history of this center...

(...) My very best regards and gratitude for their excellent professional labour and great passion for teaching towards Teresa, Covadonga and the rest of the teaching staff, who are there for our students inside and outside the classrooms (...) Also my gratitude

Since three years ago we have established a close relationship with the Colegio de España, sending our students for a course during the month of March.

During our stay our students and I have found dynamic teachers, with a great preparations and dedication.

The professional attitude of the Direction of the Colegio attending our demands was exemplary; they have always tried to please our demands so that our stay in Salamanca would be the most pleasant and productive as possible.

The students' evaluations, concerning the courses and visits to the city of Salamanca and surroundings the school offers, show a great rating.

The security the city of Salamanca is a great reference point when having to choose a destination for High School Students.

BARUCH COLLEGE

It has been more than fifteen years now since we first started to send students to the Colegio,

between 20 and 30 per year, during the months of January, June and July and their opinion has always been favourable.

As a result of the safety that the city of Salamanca offers- in contrast with places like Mexico or South America- which is certainly a important factor to bear in mind, Baruch College keeps sending students to the Colegio de España courses. Moreover, during the last 15 years these courses have been really successful and interesting, a real educational and valuable experience with comprehensive and dynamic teachers that work with small groups, friendly and honest families and the possibility of getting to know other cities in Spain.

Each and every year that I have been to the Colegio de España with my students we have come across excellent teachers and a great cultural and academic atmosphere together with an extraordinary Administration and Management Team. The professionalism and friendliness of all the staff, which have made my work much easier, have encouraged me to continue as the Director of this programme for the last 14 years and to promote and organize it in the WIU University, where I have been teaching Spanish since 1993.

SPRÅKRESEFÖRMEDLARNA

Avista Språkreseförmedlarna has been sending students to the Colegio de España in Salamanca for the last 20 years. When another centre was opened in Alicante we also started promoting it in Sweden. We are really pleased with the Colegio and so are the hundreds of students that have already been there and whose evaluation of the courses and the different activities it offers has shown highly positive results.

We are absolutely confident about the quality of the Colegio the España and we will continue working with both centres, in Salamanca and in Alicante.
