DIE AKADEMIE
SUPERLEARNING FOR LANGUAGES

About us

The language school **DIE AKADEMIE** was founded in 1998.

DIE AKADEMIE is an international school with participants from many different countries!

The school is situated near the cathedral so it has a perfect situation in the centre of Palma. Among many little cafes the old town also offers historic charm as well as our schoolhouse of the sixteenth century, the domicile of Majorca's upper class in former times.

Our teachers are academics, come especially from the continent and dispose of long teaching experience in the sector Spanish as foreign language. As our teachers also use parts of the method of the suggestopedia, a new form of learning, progress in learning can fast be achieved.

American doctors called this method “**superlearning**”. On this base the most important of the teaching methods of our tutors, who are native speakers, is conversation and the understanding of the foreign language. The lessons concentrate on being practical and near on life besides they introduce the participants playfully in the other language.

In an audio-visual room can be relaxed playing classic music and melodic sentences while the knowledge is repeated and internalised. This phase of relaxation is efficient for the faster learning of the language (but is almost only used in the lower courses).
