All **ILI teaching staff** is properly trained to "CTEFLA" standards (Cambridge RSA), as well as being Arabic language specialists. The educational management of our Institute includes a Director of Education, two Educational Specialists who are also qualified teacher trainers, a Director of Development and a Director of Course Books and Materials. The Director of Course Books is undertaking the considerable task of producing, publishing and printing the new books. ILI is recognized by International House as an efficient teacher training center for 'Teaching Arabic as a Foreign Language'

Experience. ILI Arabic Language Institute was established in 1975. Over the years we have handled a huge range of students: individuals, company groups, archeologists, business-people, diplomats, UN agencies, VSO, university students and professors, tourist language/culture groups, foreign offices/embassies and even the British Army (Yes, we did!). We have also trained teachers of Arabic (language and teaching methodology) for the Ministry of Education in Brunei. About 20% of our work focuses on putting together 'Study Abroad Programmes' for universities such as Odense, Oslo, Uppsala, Exeter, Edinburgh, Chosun, etc. If you would like to talk to them for feedback, please let us know and we will give you contact details.

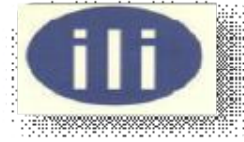

Certificates and recognition: ILI issues detailed course certificates with clearly defined course objectives and assessment information. Our course levels are matching the Common European Framework. Above listed universities accept our assessment as part of their students' grading, and several American universities are giving credits for courses that their students attend at ILI. We are a private language institute, and although we are affiliated to International House, this does not give our courses an immediately recognizable "status". However, to date we have been successful in negotiating recognition when it is required.

Grants and scholarships: ILI offers 10 scholarships to undergraduates each year. Also many students have been successful in obtaining grants from their university, or through government funds. We can provide documentation in support of applications.

Books and materials. ILI has a comprehensive range of student textbooks, CDs and workbooks. These books and materials have been developed in-house over the years, as most commercially produced course materials are either impractical or un-workable. As our staff is 'International House' teachers, they readily understand the needs of the language learner - hence our development of courses and materials never ends, and our books and materials really help our students to 'listen, speak, read and write'. A series of Egyptian Colloquial books has been published by American University Press (details see page 2).

Accommodation, airport meeting, apartments. A full service is available and an agents outline is attached.

Brochures, posters, printed student information in files, power point presentation, and website: are all available, and will be sent to agents annually in October, or on demand.

Modern Standard Arabic (MSA)

Is the written language of Arabic. It is developed from Classical Arabic which is the language of the Holy Quran. MSA is the language of newspapers and the media. It is a 'living' language, drawn up by educated people and intellectuals. The objective of our MSA courses is to enable you to read and write at an appropriate academic level, and to enable you to follow current day-to-day events in the Middle East and North Africa. Our MSA courses also serve as an introduction to the enormous wealth of Arabic literature.

WHAT YOU WILL LEARN

We have structured our MSA courses from level 1 (Beginners) to level 10 (Advanced) and by the end of each level you should be able to:

Pre-MSA:

Using a variety of classroom activities, this course will enable you to build up the basic skills of reading, writing, listening and speaking as well as developing language acquisition skills. Grammar is not presented explicitly at this stage.

Beginners MSA:

This level aims to enhance the understanding and production, both written and spoken, of different patterns of nominal sentences, present and future tenses of verbs conjugated with single pronouns, negation of nominal and verbal sentences and useful basic vocabulary.

Early Elementary MSA:

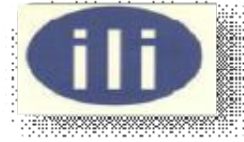

This course expands on the teaching points of the previous level in teaching tenses with plural nouns. The level also deals with all essential morphological rules related to verb conjugation, such as weak roots and the ten forms of Arabic verbs as well as sentence structures. All grammar and morphology presentations are contextualized in relevant situations which expand the basic lexicon.

Elementary MSA:

This level prepares the participant with essential newspaper expressions and vocabulary. This level expands on the morphological aspects of vocabulary. "Masdars", active and passive voice, reported statements, conjunctions and complex sentences. This will enable students to understand and use them in meaningful contexts.

Early Intermediate MSA:

This level details sentence formation, compound and complex sentences and related syntax, i.e. connectors, clauses and accusatives. It expands more on morphology as active and passive participles.

Intermediate MSA:

Students will be exposed to different styles of semi-authentic texts with the aim of building a more specialized lexicon and expanding on grammar taught in previous levels. This level also enforces oral and written skills through a variety of classroom activities.

Upper Intermediate MSA:

This level exposes the student to a wide range of topics which cover a variety of areas such as Politics, Economics & History. It focuses in expanding grammar such as different uses of "Masdars", using different verb types and conditionals.

Post Intermediate MSA:

This level is aiming at fluency in reading and enables the participant to cope with short texts of different styles by using a wide range of topics. Grammar points are generated from the text. The student consolidates and expands on all grammar and morphological rules taught in previous levels.

Advanced levels MSA:

In these levels, students are exposed to a variety of texts which enrich their knowledge of sophisticated vocabulary. The levels also widen the scope of the students' understanding of different written styles; i.e. the informative, argumentative, philosophical, scientific and literary styles which are used at different times by different writers. These authentic texts enable students to have a deeper analytical view of Arabic grammar and syntax problems.
