

## *The pleasure of studying Italian in Tuscany by the sea*

### **Who we are**

Since 1981 we have offered students from all over the world the opportunity to learn Italian in one of the most beautiful parts of Tuscany.

Our school is open all year round in Pisa, a university town 12 km from the sea, famous for the Leaning Tower and Miracle Square. From June to September it is possible to attend our courses in Viareggio, a typical sea-side town well known for its pine-woods and nightlife.

Given their importance, both towns have good rail and road links with Rome, Florence, Milan and Venice.

Our school is recognized by the Italian Ministry of Education, the Swedish CSN, in Germany for educational holidays (Bildungsurlaub) and is member of the associations ASILS and Euditalia. The Istituto Linguistico Mediterraneo is a CILS and DITALS examination site for the Università per Stranieri di Siena.

The Pisa school has a Wireless at the disposal of the students.

### **Our method**

The teaching method is structured to facilitate the development of communicative ability without neglecting the study of the grammatical structures. The teaching material is produced by our institute, but is appropriately supplemented, according to the judgement of the teacher, in order to meet the needs of the class. Each class has its own identity and needs which essentially makes the teaching "personalized". Upon request, once a week a teacher receives students by appointment for any additional explanations or clarifications relating to the part of the syllabus taught during the lessons.

### **Our Italian Language courses**

On the first day of a course each student is carefully assessed by means of an entry test so as to place him or her in a group that is suited to his/her knowledge of the Italian language.

The groups of students are on average small (6-7 students) with a maximum of 12 students per class. The courses are organized by levels according to the Common European Framework for Languages.
