Learn to speak Spanish and improve your language skills in a friendly environment that will make you feel right at home. We like to give our students the best attention possible, this is why our teachers are highly qualified and we have no more than 5 students per class. OLÉ offers flexible group programs and/or tutorial classes in a unique Spanish language school founded almost in 1996.

To ensure that you learn Spanish as quickly and as well as possible and enhance your learning experience, we recommend combining any of our Spanish programs with living in a Mexican home and taking cultural activities such as cooking classes and field trips. Host families are carefully selected for your comfort and safety.

OLÉ is located in the heart of the historical downtown of the beautiful colonial city of Querétaro, just 200 km north of México City and one of the safest and cleanest cities in the country. We carefully selected the location of the school within the city, allowing the students to be within walking distance of the historical, artistic and recreational attractions of the city.

The colonial architecture of our building with its two beautiful patios, 13 classrooms, library and internet area, 2 living rooms, BBQ area, ping pong and mini basketball facilities, Mexican kitchen and cafeteria provides our students with a pleasant and family atmosphere where they can study Spanish and immerse in our culture.

We understand the importance of offering quality programs and attention, and we are committed to always giving excellent and timely service. At OLÉ, students will live an unforgettable experience in a family atmosphere. So, if you want to learn Spanish while you have fun and enjoy the magic of México, you know where to come.

● QUERETARO ●

Santiago de Querétaro is rich in history and colonial architecture, besides being one of the largest industrial and business centers of modern México.

Querétaro's downtown has been officially declared "Cultural Heritage of Mankind" by UNESCO, and it offers its visitors a tradition of almost 500 years of history. Its aqueduct, temples, churches and grand colonial houses and palaces make this city one of the most beautiful places in México.

It is also one of the safest and cleanest cities in the country and only a few hours away from other beautiful cities, such as Guanajuato and San Miguel de Allende, major center for Mexican and international art.

This city is also the capital of the state of Querétaro, which includes numerous other attractions for visitors, from archaeological sites to spa resorts. In the north of the state is the Sierra Gorda; one of the largest regions of unspoiled nature in the central part of México. A vast territory that offers five beautiful missions founded in the 18th century; a sharp contrast between the warm almost tropical landscape of the northern parts of Jalpan, which belongs to the Huasteca region, and the pine-covered hills of Pinal de Amoles, a municipality located high in the mountains, where you can sometimes find snow during the winter.

● METHODOLOGY ●

OLÉ has developed a methodology which uses the right combination of conversation and grammar and it is specially designed for students of all proficiency levels, ages and professional experience with creative teaching methods which enhance the nature of social, cultural, and pragmatic features of language. Our teaching objectives are to use “real-life” communication in the classroom and to get our learners to develop linguistic fluency, not just the accuracy.

Our Spanish program is designed at thirteen levels of 50 hours each, except for the Superior level which has no time limits. In order to meet student’s special needs, we have designed various practical and dynamic programs and tutor classes with special vocabulary emphasis (business, medical, law, technical, etc) to fit individual needs and also tailor-made courses for groups with specific needs.

Classes are divided into one and a half hours of grammar, half an hour of vocabulary and exercises, one hour of workshop rotated daily covering the four skills of the language. For the five hour program, we offer two more hours of cultural workshops in which students will reinforce the four skills of the language with cultural topics emphasizing in this way a total immersion of our language and our culture.

Materials and books used in our programs have been carefully selected by our Academic Department to enhance the learning of Spanish and Mexican culture.

Classes begin every Monday and are limited to a maximum of 5 students per class so that students receive personal attention.
