Good to know

Weather in London
The weather in London is not usually very hot or very cold but it can change quickly and unpredictably. The maximum temperature in summer is usually about 30°C and in winter the lowest is probably around 0°C. It does not usually snow a lot in London. We often have mild winters and cool summers so you should be prepared for anything.

What to wear in London
We do not expect any particular dress code in the college. Most of our students tend not to dress formally, but wear comfortable, casual clothes. When you are sightseeing or shopping in London you will want to be comfortable and warm. Most pubs, restaurants and theatres do not have an official dress code and you will be welcome in your casual clothes.

Safety and security
London is not a dangerous city, but it is a big and busy one and it makes sense to take simple precautions.
Do not carry large sums of money with you. You should open a bank account if at all possible.
Do not take all your credit cards out with you at the same time, and don’t keep your passport, credit cards, money, etc. together.
Use a bag which closes securely. Do not put your wallet where everyone can see it.
Do not leave valuable things like mobile phones lying around in public places.

Will my phone work there?
Like many foreign countries, it will be cheaper for you to buy or bring a small mobile phone and get a local number (a sim card with £10 credit) than it will be for you to use your own mobile phone. And don’t forget to buy an adapter to charge your phone.

An umbrella is always useful although it doesn’t rain as much as people think.
before you travel...

Getting around London

If you are in central London for longer than a few days it is best to get an Oyster Card as it’s cheaper and all you have to do is swipe it to get on all the buses and the Tube (underground).

If you are studying with Eynsford College full time for more than 14 weeks you will be eligible for a student Oyster card, which will give you 30% discount off your travel expenses around London. You can only apply for a student Oyster card after you have arrived at the college.

If you are planning to stay in London for less than a month (2-3 weeks) the best option for you would be to get a weekly travel card, which can be purchased at the Tube station.

Some basic “Tube Rules”
- Stand on the right on escalators
- Let passengers off the train first
- Stand clear of the closing doors
- Give up your seat to older/disabled people and pregnant ladies

Travelling by bus
Remember to put your arm out to stop the bus!
The last buses and tubes leave central London at around midnight but there is also a network of night buses. All night buses have a letter ‘N’ before the number on the front of the bus.

Daily travelcards can be used until 04.00AM the following day on these night buses.

The following list gives a rough idea of current prices. They are only approximate and you will probably find quite a lot of variation – it very much depends on you, especially for Food and Drink.

Money matters

The currency is UK Pound Sterling (£). You will get money out of an ATM in pounds, and you will often be charged a foreign transaction fee of about three percent by your bank, whether you get cash out or use a credit card. If you want your debit/credit cards to work in England, or any foreign country, call your bank before you leave.

Cost of living in

London is not a cheap city, although please remember that there are many things to do here which are free of cost. You can spend a day walking round our beautiful parks and visit wonderful museums and galleries and spend nothing at all.

The following list gives a rough idea of current prices. They are only approximate and you will probably find quite a lot of variation – it very much depends on you, especially for Food and Drink.
