### "Great Teachers and Small Class Size"

I am 35 and just finished two weeks of Spanish language learning at Academia Pradoventura. I have only great things to say about the school, the teachers, the students, and the town where the language school is located. The owners of the school are very involved, extremely warm and welcoming. The professors are experienced, great at what they do, and very friendly. This combined with the small class size (only 4 students in my class) made my learning experience a great one. There were students of all ages and from several different countries, which enriched the experience for me. Academia Pradoventura is unique because it is located in a small village rather than a big city, which makes it easy to feel a part of the community and get the most out of the cultural experience. I highly recommend it!
