¡Hola!

We want to tell you more about AKO Language School, our methodology, our teachers and our values so that you decide to learn Spanish in Mexico.

Our intention is to be More than a Language School because you can find in us a group of friends, support for your trip, a unique cultural experience and a connection with Mexico that will last forever.

## More than a Language school

AKO Language School came up with the idea of being able to offer foreigners an option to learn Spanish in Mexico in a simple way and to help them understand the local culture of the country they visit.

Over time and understanding the needs and goals of our students, we understood that beyond being a school of Spanish in Mexico to teach how to learn Spanish, we had to become a company for all of our students.

## Social & culture programme

In AKO we believe that in order to get the most from their time in México, students should be exposed to Spanish not just in the classroom but in a variety of environments and contexts.

Our social and cultural programme is so important to us and why we spend so much time and energy making sure that it is as vibrant and interesting as possible.

These activities are a scheduled one day per week and normally occur after class in the afternoon and evening.
