Proposal:

Our Spanish course for non-native speakers follow these 4 points:

- 1- *Accuracy*: Vocabulary and basic grammar.
- 2- *Functional language*: Focuses on functional speaking.
- 3- *Skill*: Using language across of modalities of speaking, listening and reading.
- 4- *Fluency*: Students have opportunities to practice fluency, especially in the speaking activities.

These points were identified after many years of study of the ALAS Language Academy professor team who teach Spanish for non-native speakers and give directly support to the main necessities of the students. With this course the students in a *short time* will be available to *speak, read and write in a new language*.

Description:

The basic course offers 10 main themes, there are also some themes that we call “*additional*”, the students must negotiate to the teacher these additional themes, according with their interests, for example about the local history, culture, sports, etc. Our approach is always the communicative approach.

This basic course is divided in two different parts: Functional content and Grammatical content, these parts are putting together in each one of the basic theme, with this disposition the students will be learning both parts at the same time.

Basic themes:

1. *Introducing yourself and someone else.*
2. Greetings (social uses of the language).
3. The work/job.
4. The house.
5. The food.
6. The neighbourhood.
7. Friends’ activities.
8. Vacations.
9. Shopping.
10. Health and ills.
