British Study Centres and Experience English have joined together to create the UK’s leading group of premium English language schools for both adults and young learners.

Every week, hundreds of eager, curious new students come through our doors, looking for the key to their future. They recognise that to be taken seriously on the international stage, they have to be able to use the world’s no.1 international language.

Well, they’ve come to the right place. In all of our schools, our teachers and support staff have a wealth of international living and working experience. They can easily empathise with students and the difficulties they regularly face. But the caring doesn’t stop when our students leave the classroom.

As well as our wide range of English classes, we also organise an array of social activities which provide our students with the perfect opportunity to meet one another, socialise, take part in fun activities, see fascinating places and of course, practise their English.

Young, fun and trendy

Known as ‘London-by-the-sea’, Brighton has two universities and reputedly the youngest population in the UK. It offers the buzz of a large cosmopolitan centre in a relaxing seaside setting. There is much to explore: the famous pier with its fairground attractions, the Marina with its waterside cafés, bars and health clubs and the Sea Life Centre. Brighton & Hove is on the south coast of England. There is a regular direct train service to London which takes just 49 minutes.

**Ideal location**

Close to Brighton and Hove train stations and within easy reach of the city centre, we are close to all the major attractions of the city centre and even the beach, which is a 15 minute walk away.

We are next to our sister school, Hove College, which offers specialist diploma courses in Web and Graphic Design that can be combined with General English programmes.

Bright classrooms

The school has 22 classrooms, spread over two buildings, all with high windows and natural light, most of them with views of our fantastic garden.

In-house café

The school has its own café where students can have a meal and socialise during breaks and after lessons. The food is freshly made in-house and provides a good value-for-money lunch option.

Throughout the year our schools participate in many fundraising events to support charities such as Cancer Research, Save the Children and Amnesty International. Last year BSC helped those charities raise over £2000! This year, staff and students at BSC Brighton have managed to raise more than £550 towards The Clock Tower Sanctuary for local homeless people.

In addition, British Study Centres has a chosen charity, the Hotcourses Foundation, which supports children in Africa that have a limited access to education. BSC is trying to help by making annual donations to the Foundation.

Packed social programme
Our weekly social programme offers a fantastic range of events. Brighton is the perfect place to enjoy the best of British sun and seaside. ...and the people who make them happen

Improving their English has boosted career prospects for lots of our students. At BSC, our qualified, experienced teachers can give you the tools to take the next step.

Meet Paul Driver
He is a teacher/teacher trainer at BSC Oxford and has helped to introduce cutting edge technology throughout the school.

Technology is becoming more mobile, more invisible, more humanised, and is democratising the way we use classroom space.

Paul, what’s your role at British Study Centres?
I’m a language teacher, but also do teacher training – mainly tech courses, refresher courses and continuous professional development for in-house staff, as well as day-to-day IT classroom support for teachers.

What do you enjoy most about your job?
The variety. I love my teaching time and trying out my ideas with students. This feeds into my teacher training. I also like trying out new things and keeping up-to-date with technology.

How has the school changed in the last year?
In just a year, the school’s infrastructure, environment and training have all been changed to embrace mobile technology in the classroom. Teachers have adapted and learned what they can do in the classroom.

Will people notice the impact of mobile technologies at school?
Definitely. We’ve got fixed, class and student iPads, and augmented reality posters around the school – great for posting social programme information as well as sharing student work.

Have there been any changes to the classrooms?
We had interactive whiteboards, but what we really needed were projectors. Now every classroom has got a projector connected to Apple TV, so teachers or students can stream anything from a mobile device – perfect for peer correction and presentations.

What’s the future of technology in English language schools?
At the cutting edge, we’re definitely moving towards mobile technology, and there are no more clunky machines in classrooms. The humanisation of technology is the future trend.

Choose your course

Whether you want to improve your English for work, study or pleasure, a General English course is the key to understanding the language.

**English for life**
General English courses form the foundation of your English knowledge, and give you the space to analyse, question and practise. They include speaking, listening, reading, writing and pronunciation. The aim is to help you use newly acquired skills in real-life situations, immediately.

**Small groups**
Classes are small and multinational, with an average of 11 students and a maximum of 14. This enables our teachers to focus on your individual aims and interests, and help you improve your English in a way which is relevant to you.

**A warm and friendly environment is essential for effective learning. Our commitment to this and high standards of achievement, ensures that your time at the school is a rewarding experience.**

**Individual assessment**

If you have achieved satisfactory attendance (85%+), you receive a certificate and a report signed by Academic Management at the end of your stay.

These are very useful tools to show employers when looking for a new job.

We also use a range of contemporary authentic, and stimulating materials, including news articles, videos and radio interviews.

**Track your progress**
It’s important to remain motivated while you study. Weekly progress tests and regular 1-to-1 tutorials with your teacher, allow you to discuss progress and get advice.
