OUTDOOR ACTIVITIES

Week and weekend activities will make your stay in San Diego even better! Visit the incredible San Diego Zoo, take a tour around city or enjoy on-campus activities with your classmates.

Family Package

Designed for parents and their children to learn English together while enjoying exciting activities in San Diego, this program is an excellent opportunity for families to bond and learn new skills while immersing themselves in a new culture. The Family Program consists of language classes in the morning, that are specifically designed for parents and children, combined with afternoon outdoor and on-campus activities on weekdays and optional activities on the weekends.

Parents and children will have separate classes during the week and then **join together for activities after classes for two days and join separate, age-appropriate activities, for the other two days** during the week days (Fridays are considered "free days" for the family). This structure allows for age-appropriate language instruction and also creates opportunities for the family to learn together and share their experiences.
