This camp gives young kids the opportunity to immerse themselves in French culture through an Immersion program. It offers the student a homestay in our region of the French Riviera. Students can gain intercultural experience, relax and have fun while learning about French life and society. Immersion programs can be organised for a minimum of 1 week in a warm and inviting home stay. For this programme, our host families are certified French teachers who encourage each child to learn French through practice while embracing French culture.

My kids are wrapping up their 3rd week at Riviera French Institute in their immersion programme and all I can say is WOW! They had never learned French before, they are already talking in full sentences, they have learned a huge amount of words, and they are having a blast. I am so happy with this program and highly recommend it!
