

CASA a school that feels like HOME

At CASA you will not only study in a familiar environment but also in a professional one. Our school programs are based on the Common European Framework of Reference for Languages (CEFR). We have more than 20 years experience in customer services. All the members of our staff are both majored in Spanish and in Education. They are qualified and have been working together with us for a long time. They all speak English and other languages too.

Our groups are small because we believe that the best way of learning is by focusing on each student and thus offering personalized classes, adapted to the needs and difficulties of each individual.

The idea behind CASA is to ensure that our students feel that the school is a second HOME and a space always open for them during their stay in Argentina.
