**How will I learn Spanish? How many students will there be in class? Will I study at the right level? Where will I live? What will I do after the lessons?**

Learning a language is a very complex task and every detail is very important when the student is in a different country.

Since 1988 the CastiLa staff have been researching and working carefully to make it easier, more productive and comfortable: his/her arrival, his/her accommodation, the lessons, the school, the way of learning and the social activities...

Help the candidate to think about his needs before make a decision; choose a town and assure yourself what the features of the different schools mean to him. Then it will be a truly enriching and memorable experience.
