### PRE COURSE PREPARATION:

All potential participants will be sent a needs analysis questionnaire before the course begins. This helps us determine the individual needs of each participant. Participants of similar backgrounds, needs and levels will be grouped together as much as possible. We endeavour to ensure that these groupings benefit all our participants.

### COURSE FOLLOW UP:

Upon completion of the course, participants will be supplied with a list of further suggested reading and useful websites. They will be encouraged to stay in contact with their peers and the trainers. Peer networking is strongly encouraged and our Moodle page makes it easier to reconnect with peers after the course is completed. Participants will be asked to self-evaluate their input into the sessions during the course and we hope that this will promote self-evaluation of lessons once participant will return home.

Sessions are designed and delivered by CES Head of Training and Development Chris Farrell

The Further Development Teacher Courses are intended for English Language teachers or teachers of other subjects who wish to refresh and develop their language skills and teaching approaches. The courses provide opportunities for sharing ideas and networking with colleagues from a variety of European countries. Our sessions are practical rather than theoretical and include a variety of approaches. Our aim is that participants can take everything they do in the sessions and apply it to their own learners and classrooms. We provide the entire course materials through our Moodle page. The participants leave with a portfolio of new material developed during the course.

The courses take place one or two weeks during the months of July and August. Language awareness and methodology sessions take place Monday to Friday mornings. The schools run an extensive cultural and social programme in the afternoons which includes visits to the various cultural attractions in each location.

Unfortunately we are unable to arrange any job shadowing for participants of further development courses. We do, however, include class observations within CES, which we hope participants will find beneficial.

### DO I NEED TO BRING ANYTHING FOR THE COURSE?

There is no requirement to bring any material, however we would recommend bringing a laptop or another means of accessing Moodle while in Dublin. Please note that Blended Learning course participants should bring a laptop with them as there is a focus on using technology on this course.

### HOW ARE THE COURSES DIVIDED INTO CLASSES?

We primarily divide participants by the type of course they have applied for and then by level. Where possible we aim to accommodate participants' needs and backgrounds.
