

# Italian & Photography (G+P)

## Structure of the course:

G80 Italian group language course, 20 lessons / week  
+ 6 one-to-one photography lessons)  
from 1 to 48 weeks

Florence is thanks to its artistic and historical riches one of the most photographed cities in the world.

Everyone, tourist or not, wants to depict the monuments, palaces, churches, squares, gardens and other treasures of this unique city.

However, the results are often not satisfying and one stops to buy postcards instead.

So why not combine your Italian language studies with a photography course?

The Centro Fiorenza gives the possibility to learn how to photograph or improve photography techniques swiftly with individual lessons, given by professional teachers.

No previous experiences are needed. Students must arrive in Florence with their own camera. Think about the satisfaction of showing self-made pictures to family and friends!
