Break Your Language Barrier

In this fast paced world of new technology making everything faster, more immediate. Concorde International is a very personal School, we enjoy taking time to get to know you, our students and making new friends; excellence takes time and we feel we have got it just right for you after 50 years!

Concorde International has a range of courses to suit your needs: professionals, teachers, university students or young adults looking to improve their communication fluency. Take a look through this brochure to choose the course which matches your need, and we will match your ambition! For those unable to travel, we still offer students the possibility to access live classes online.

English is a richly varied, constantly evolving language, and choosing a course in the home of English is to really experience it for yourself! Intelligent computer software cannot replace the dynamic of a classroom, of meeting new people from other cultures and languages, that sense of achievement at exam time, or just being here breathing British culture in all its forms.

Concorde International is in CANTERBURY, one of the UK's most historic cities, a UNESCO World Heritage site..

A city both ancient and modern, which attracts 3 million visitors a year, 36,000 students yet is so easy to get around to meet up with friends, to have a coffee, go to the theatre, cinema or latest festival.

Concorde International Study Centre is situated just by the main high street, very easy to pop out and get a cappuccino, or visit the market stalls, or just walk to the city park for local events.

When you enrol in Concorde International, it is like entering a family not an organisation; we look after your welfare and can advise you about accommodation choices; we help you achieve your targets, and we follow your journey after you leave us. My office is often filled with returning alumni who tell me of their success!

I look forward to welcoming you to Concorde International in our 51st year!

If I had just gone straight to university without doing this course first, I don't think I would have survived. I think it helped me to understand how university works and about university life.
