LEARN SPANISH, CULTURE & VOLUNTEER

IT'S TIME FOR CUBA

A UNIQUE BLEND OF LEARNING SPANISH, CULTURE & DANCE, AND VOLUNTEER PROJECTS

Amazing things are happening in Cuba right now – it starts in Havana!

Happily we have made a strong recovery since COVID and now receive over 30 clients per month who stay an average 2 weeks to learn Spanish, dance, enjoy cultural excursions and exchanges, volunteer... engage and enjoy this beautiful and bewildering country. Our local team in Havana and network of partners around the country are fully seasoned and really enjoy the energy that our clients bring to their country.

We continue to add elements to our programs to make them relevant to the constant changes and innovations happening around us; but the essentials stay the same. We think we have hit upon a winning formula for our clients and look forward to hosting them through 2024.

PROGRAM 1

LEARN SPANISH / 1 OR 2 WEEKS

Learn Spanish in Old Havana – a UNESCO World Heritage Site bursting with atmosphere, music and dance. Homestay with Cuban family in a vibrant maze of neoclassical buildings.

This program is based in ‘Habana Vieja’ – in the heart of the historic old Havana, a UNESCO World Heritage Site. The area is a myriad of gorgeous neo classical buildings packed with local people living cheek by jowl. At street level there is a constant buzz with musicians plying their trade in the many fantastic bars to be found in this popular neighbourhood. The area is VERY safe, and you will quickly feel comfortably at home. There are lots of interesting shops and quirky art galleries here and most of Cuba’s cultural heritage including national museums also.

Accommodation is a licensed Casa Particulare in the atmospheric heart of Old Havana; shared single sex dorm rooms with other program participants (couples or friends booking together automatically upgraded to private room with en suite/private bathroom) OR upon payment of a single room supplement you have the option to stay in another nearby Casa with your own room and private en suite bathroom. Either way breakfast and lunch are served at our main Casa and this is the hub of program activities. This is also where Spanish lessons are taken as well as group discussions, planning meetings and impromptu social gatherings.

Intensive Spanish language lessons take place Monday to Friday in the mornings, leaving the afternoons, evenings and weekends free to enjoy this amazing country.

Volunteer Placement - Havana

Our volunteering begins with a group 'orientation' walk around Habana Vieja & Centro, during which we visit our projects; to discuss the issues and bring everyone comfortably up to speed and feeling welcome. Work begins the next day and depending where our need is greatest will include a combination of the following projects.

- **Suspiro & Arco Iris Community Centre's**

We work with two children's community centers supporting activities for local kids aged 5-15 years. The kids include those from broken and troubled families and our focus – in addition to creating a fun filled environment – is to give its members better preparation for adulthood and parenthood. A variety of classes are given but focus always remains on social skills and confidence building. Activities include acting, dancing and singing classes and we often make presentations with our volunteers.

Our work as volunteers includes assisting with needed renovation and maintenance work to the facilities, assisting teachers in preparation and planning of activities, assisting teachers carry-out activities and classes with the kids, hosting and planning our own activities for the kids and donating needed resources.

▪ Sports Complejo

The sports complejo has been the main sports facility for all the schools in Habana Vieja for generations. It is very established but lacks basic facilities. Sports supported at this location include; baseball, volleyball, athletics, olympic wrestling, basketball and judo.

We support sports in Cuba whenever possible, the benefits sports bring to society are well known to Cubans and we follow their lead. Our work as volunteers includes, renovation and maintenance of facilities, donating equipment, assisting in sports training and hosting sports events and matches.

▪ 'El Gimnasio' Boxing Gym

Following the work accomplished at the legendary 'Rafael Trejo Gimnasio' – including rewiring, painting and a huge amount of donativo – we are now working with another, younger, boxing gym that needs our help.

The facilities are quite poor and in a desperate situation; equipment is almost nonexistent. The coaches are passionate and therefore have a large following of kids, with ages ranging from 5-21 years old. Our work as volunteers includes renovation and maintenance of facilities, donating equipment, assisting in sports training and hosting events.

• Paseo Del Prado

Weekends are generally free but we also include activities to help you interact and enjoy your surroundings. On Saturdays, weather permitting, we take a trip to the beaches that lie 30 mins by 'collectivo' taxi or bus, immediately east of the city, known as Playas del Este.

Sunday afternoon from 12-3pm we take a short walk to the famous Paseo del Prado, where a collective of local artists gives free 'arts and crafts' classes to local kids. We bring supplies to donate as well as helping out, depending what's going on. It's all very casual and a great way to enjoy and learn about the diversity of local art, as well as mingling with the locals and helping out the kids.

PROGRAM DESCRIPTION

Program starts and finishes in Viñales BUT transportation can be arranged from Habana Vieja direct to your Casa Particulare in Viñales departing after breakfast Sunday morning and arriving lunchtime. As usual there is a 'welcome camino' to familiarize yourself with the neighbourhood and various services. Very quickly you will sense a totally different atmosphere and pace to the chaotic energy of Habana.

This is farming country and the horse is used to get around town and used to work the rust coloured tobacco fields. The town itself is very pretty nestled in a valley surrounded by distinctive limestone mountains. The main square is lively during the evenings with an outdoor 'Casa de Musica' being the central hub for nightlife.

Accommodation is shared rooms in a family run Casa Particulare. Breakfast and lunch are provided each day and features locally grown produce – usually organic. Monday to Friday Spanish lessons continue in the usual format 3 x 45 minute lessons from 09:00-11:45. After lunch there are daily activities, listed below, to help you enjoy and explore this beautiful part of the country.

Week	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
07:00-08:30	Breakfast	Breakfast	Sunrise Hike	Breakfast	Breakfast	Free	Breakfast
09:00-11:45	Spanish Lesson	Spanish Lesson	Spanish Lesson	Spanish Lesson	Spanish Lesson	Brunch 09:00-11:00	Program End – return to Habana

14:00-17:00	Horseback Finca Tour	Trek Valley of Silence	Free	Bike tour Indian Cave	Discover Viñales		

Spanish Lessons

Monday to Friday's intensive Spanish lessons take place shortly after breakfast. Your teacher is licensed and on day one you receive a short test followed by a discussion to establish your level and objectives (OR if doing this as a 'follow on' program, teacher in Havana will prepare continuation classes in Viñales). Lessons take the format of 3 x 45 minute lessons each morning, with 15 minute breaks to refresh, making approximately 3 hours of Spanish lessons each day – 15 hours per week. Lessons are held from 09:00 sharp, Monday to Friday at your Casa.

Activities

Each day Monday to Friday an activity has been scheduled to help you enjoy and explore the town and countryside. These include;

- **Horseback Finca & Tobacco Tour**

The best way to explore the valley and lush plantations is as the local farmers do; on horseback. This is a gentle trot through the countryside to take in the scenery and traditional farming techniques. We stop at one of the distinctive tobacco drying houses and learn more about this famous crop – and the processes involved in cultivating tobacco, drying/curing and finally how to roll a cigar. We then continue to the spectacular 'Mirador' viewing point before returning home late afternoon.

- **Sunrise & Prehistory Mural**

This morning we have a particularly early start as we aim to catch a spectacular sunrise with a local community, Los Acuáticos. We enjoy stories about the history – and mythology – of this community. After a coffee or fruit juice we continue to the famous ‘prehistory mural’ – actually an art piece created in the 60’s and often hyped but nonetheless a popular attraction and the location itself is very special.

Back to our Casa ready for breakfast... and Spanish classes. As the afternoon is free any sleepy heads can enjoy a well-earned siesta!

- **Bicy tour to Indian Cave**

This time we hop on bicycles and head out of town and explore one of the many limestone caves that make Viñales so distinctive. Some of these caves were used as shelters for indigenous peoples and used as hideouts for runaway slaves. There is also a cave that doubles as a nightclub!

Today we take a boat trip to admire one of the most extensive cave formations with distinctive mineral and limestone formations.

- **Viñales village & Botanical Gardens**

Our final activity during this busy week is to learn more about the evolution of the town, different construction techniques and pointers to her future. We also learn more about the indigenous flora at the beautifully manicured botanical gardens.

SUPPLEMENTARY NOTES

DONATIVO

Owing to the sanctions imposed by Cuba's nearest neighbour for over 50 years, many basics that we take for granted are in short supply. Together with our Cuban partners, we have created an innovative scheme to help deliver real practical assistance to the Cubanos.

We invite all our guests to bring a few kg's of items from the list below. You can ask family, friends and neighbours to contribute to this effort. Be creative! We are not asking you to spend money buying these items new – in our experience most households already have some of these items, unused or underutilized, e.g. unwanted gifts. By asking around and using up some of your baggage allowance you will making a huge difference to the lives of the people you will be living with during your time in Cuba. You will be AMAZED how little waste there is here – recycling is not a lifestyle choice, it is a way of life.

When you arrive at your Casa, your host will sort these items into appropriate themes and explain the strategy for distributing them. Hopefully it may be possible to accompany your host when he makes a delivery of themed items to our donor institutions/partners. It is important when giving that this is done in a thoughtful and sensitive way and we have taken care to ensure that recipients need these items and appreciate our involvement.

A few ideas...

By bringing some of these items you will feel better about your time here, knowing that you have shared and cared!!

ACCOMMODATIONS

Havana is an exciting city with many interesting neighbourhoods. However, to experience the 'real' Havana you need to stay in Habana Vieja. From here you are a very comfortable walk to the best bars and nightlife, and during the daytime you will be living among the real Habaneros working in shops, bars, art galleries and going about their daily lives in this atmospheric part of the city.

Havana has a unique distinction, being the safest city in the Caribbean and Latin America generally. There are a number of reasons for this, but what it means for the curious traveller is that you will be able to enjoy unprecedented access to local people as you wander around the 'barrio' that makes up Habana Vieja.

You will stay at our hostel and language school, a licensed Casa Particulare, sharing a dorm room with other clients OR upon payment single room supplement you have the option to stay in another nearby Casa with your own room including private bathroom. Either way breakfast and lunch are served at our hostel and this is the hub of program activities, including; Spanish lessons, group discussions, planning meetings and impromptu social gatherings.

* **Casa Particulares** are government licenced 'private homestay' accommodation whereby Cubans are permitted to rent out one or two bedrooms in their home to paying guests. However, the licensing regime has recently been extended to include larger hostel style accommodation. Our hostel falls under this latter category and whether you stay here or at another Casa Particulare breakfast & lunch and Spanish lessons are taken at the main hostel and language school.

The excellent educational system for which Cuba is famed combined with a natural curiosity to learn about the outside world, and a willingness to share insights about what it means to live in Cuba, mean that you will learn a lot from our team who will be hosting you and their friends.

Trinidad is one of the Caribbean's best-preserved examples of a town from the era of the sugar-trade and Spanish colonialism. The architecture is impressive and beautiful, and the town as a whole is one of the most typical and characteristic examples of classic Cuba with pastel coloured houses, pretty churches and cobbled streets.

The town is designated as a UNESCO World Heritage site due to its outstanding cultural and architectural importance. Around Trinidad there are plenty things to see: the beautiful El Escambray mountains; Casilda Bay and it's nearby islet with crystal clear waters, white sand and fantastic diving and snorkelling opportunities; the Valley de los Ingenios (the Valley of the Sugarmills) is another World Heritage site.

Be immersed in the Afro-Cuban rhythms of Trinidad's music scene. Colourful houses, cobblestone streets, wonderful people, great food and breath taking vistas over cerulean seas make Trinidad a firm favourite among visitors.
