DISCOVER ALICANTE

The Mediterranean climate and gastronomy

Alicante is a city located in southeast Spain by the Mediterranean Sea, which gives the region its unique beauty and warm climate throughout the whole year. This combined with the friendly and open nature of the locals makes Alicante a perfect place for international students.

The Mediterranean food is a valuable cultural element of this region. Paella, one of the most important symbols of Spain originates in the Valencian region.

“Alicante is one of the biggest university cities in Spain. Every year it hosts more than 30.000 national and international students.”

THE SCHOOL AND OUR ADVANTAGES

Our school is located in the centre of Alicante, only a 5-minute walk from the beach

I was lucky to study in this amazing school. It was my first experience in Alicante and I loved it! The people are very friendly and the school is situated in the best area of the city. There are always a lot of school activities and the teaching approach is personal and effective. I definitely recommend it!

PROGRAMMES OF STUDY

We have hosted students from more than 20 countries from all over the world.

Our objective is to teach Spanish in a funny and interactive way. Our teachers are chosen for their experience, professionalism and ability to work with multicultural people.

The teachers adjust the study programmes according to the aims and needs of each group or student.

My experience has been very enriching and full of discoveries. The students contribute a lot in classes and put into practice what they have learned. We have created a great student - teacher dynamics and the classes have been a lot of fun, which is the key to learning.
