# A message from our Managing Director

Lisa James

A message from our managing director

And so, after three years, young learner programmes finally returned to the shores of the UK, US, Canada and Malta in force. It was fantastic to see most of our junior summer locations open once more and filled with happy, smiling students. In the US and Canada it was particularly special, having not welcomed one junior student since 2019!

For those of you who sent students abroad in 2022, you will know that it was not an easy summer. Staff shortages around the world, in our centres, in airports, at attractions, on transport and in visa and passport offices, made logistics difficult, but at Embassy Summer we were extremely proud of the 100's of staff in our centres around the world, who went the extra mile to make sure student safety and happiness remained our priority.

We welcomed students from all over the world again, helping to grow connections, build global communities and open new doors, which seems so much more important in the post pandemic world that has kept us all apart for so long.

So now we look forward to 2023. With several new centres in the UK, US and the return of our very popular Homestay programme in Malta we are very excited to be able to welcome even more students through our summer school doors.

We will continue to offer our year round programmes, as well as our online and virtual reality programmes. We will also continue to develop our Embassy Summer brand.

We are eternally grateful for your continued loyalty and support of Embassy Summer and we are delighted to continue sharing the summer school journey with you all.

## Our Vision

Helping students succeed in a global community.

## Our Mission

We are inspiring people. As a team, a family, we inspire our students, our partners and each other every day. We empower, share knowledge and create success. We dream big for ourselves and our students.

From a single school, to a global chain, to a leader in global education, our beliefs have never changed. We believe in people and their limitless potential. We celebrate and nurture achievement and embrace every challenge along the way.

With a positive mindset, we innovate and keep moving forward. When we stumble, we pick ourselves up, re-focus and create a new path.

Everyone we meet on this amazing journey helps to shape who we are. These connections will also shape who you are, now and into the future.

# Learning inside & outside the classroom

Here at Embassy Summer, we see language as a skill; less of a dry academic subject where the teacher explains structures and students complete exercises, and more of an opportunity to improve confidence in communicating and to practise speaking.

## Immersion in an English or French-speaking environment

Many of the students that join our courses love learning languages and want to immerse themselves in an English or French-speaking environment, but we also have students who struggle with the language and want to leave with a basic operational level - we cater for both.

## Student-centred lessons

It's important for us that students feel comfortable in lessons, that they are placed in classes with a good nationality mix wherever possible, which encourages them to use the language, to share opinions and discuss relevant topics whilst completing personalised communicative tasks. We spend time training and supporting teachers so they can run student-centred lessons that are fun and can give valuable feedback to students which will help them improve the level of their spoken language and allow them to return home with added confidence and a higher level of proficiency.

## Online placement test

Whenever possible, we attempt to place students before arrival with an online placement test. Where we are unable to test students prior to their arrival we test them on their first day of lessons.

## Real conversations

A typical Embassy Summer lesson will start with a speaking activity which will allow students to express their opinions (students might be asked to compare things or recommend something, ask for opinions, summarise a text or solve a problem). Depending on their level, the teacher might pre-teach some functional phrases or highlight them during a feedback stage; the focus is to provide a platform for real conversation on engaging topics and for the teacher to help them to improve. All our teachers receive training before they start and are supported by our academic team throughout the summer to enable them to deliver practical lessons with clear learning outcomes that improve students' level of communication.

## Our Language Programme

The classroom is at the heart of an Embassy Summer centre.

Lessons are student-centred and encourage the development of relevant language skills

- Engaging classrooms with a positive learning atmosphere
- 15 Hours (20 x 45 minute) of lessons in the UK, US and Canada (15 x 60 minutes in Malta) either in the morning or afternoon
- Taught by trained English teachers
- Student numbers of 17 students per class
- We teach all levels, from beginner to advanced
- All courses include learning resources where required, materials appropriate to students age and level, and an end of course report and course certificate.

# A good night's sleep

With so much to do during the daytime it is important that all of our students get a good night's sleep. Embassy Summer offers a wide range of residential options, all of which are risk assessed to ensure the ultimate safety for our students.

The majority of our centres are residential, offering students the opportunity to experience life on a college campus or in a boarding school environment. For our younger students, we recommend our boarding schools; these offer a more nurturing environment. For our teenagers the choice is much wider. Many of our centres offer single rooms with their own ensuite facilities; and in Malta we also use hotel accommodation with up to 4 students sharing a room. Outside of their bedroom students can also relax in the shared common spaces available to them.

We offer host family options in some of our centres (please see our centre pages for more details on where family stay is available). Our Homestay providers are all checked and inspected regularly and in the UK we work with a dedicated and accredited Homestay provider.

Most of our Homestay providers have hosted our students for many years.

We have guardians for our individual students, and residential staff in all of our locations, as well as night managers to ensure everyone is safe and well throughout the night!

All of our accommodation is cleaned regularly and we provide linen in all centres. Towels are provided in some locations but in general we recommend that students bring their own towel.

All of our centres offer full board accommodation and we make sure that our students have the right nutritional balance. We provide suitable meals to help them stay healthy, focused and energised. All our programmes include a variety of hot and cold meal items, and we can cater for most dietary requirements.

# Out & about

A large part of a summer school experience is exploring the local towns, larger cities and famous attractions with new friends!

Two thirds of the student experience is actually spent out and about, away from the classroom and therefore Embassy Summer has spent many years tailoring its programmes in each location to maximise the whole student adventure. We recognise that the excursions and activities are as important as the English language classes.

All of our programmes include a variety of full day and half day excursions, and students also have the opportunity to take part in additional trips (known as optional excursions) if they want to explore the locality further.

For more details on the excursions available from each of our centres please visit the specific centre page.

When not out on excursions, we also offer our students a wide range of activities to enjoy. These activities vary differently from centre to centre and are very much dependent on the facilities available to us, but in general we always try to include a range of sporting and non-sporting events as well as larger, whole school, evening activities such as discos, beach barbeques and cultural quizzes.

Our activity programme is designed to ensure that students maximise their opportunities to mix and meet with other students from all over the world in a less formal setting than a classroom, that they continue to use their English (or French if in Montreal) language outside of the classroom and that, most importantly they remain healthy, happy and have a fun experience!
