A UNIQUE LEARNING EXPERIENCE

English One exists to provide top quality English instruction and world class service to our students. We believe that by treating each student as an individual we can truly help them to succeed.

We aim to provide a rich learning experience that will see our students learning English in a stimulating, professional and enjoyable environment. We want our students to achieve more than they expected and to become confident users of English.

Course Overview

The Medical English course has been designed to assist you in various areas of the medical profession. There is a strong focus on developing your ability to communicate with patients, medical colleagues and paramedical staff. This course will improve your fluency in reading medical journals and textbooks and help you prepare to study or work in an English speaking country. If you are a medical student in the clinical phase of your studies this course will be of great benefit to you.

Course Outline

The Medical English course is a flexible and adaptable course with each week focusing on a different topic.

DAYS: Monday - Friday

TIMES: 9:00 to 15:00

MINIMUM LENGTH: 1 week

MINIMUM LEVEL: A2

Course Aims

The aim of the Medical English course is to develop your ability to communicate clearly and fluently in English, and to support your medical studies or research. The ultimate outcome of this course will be your development and growth within your medical career.

The intention of this course is to improve your ability to communicate with your patients and their relatives, as well as to maintain better communication with fellow medical practitioners and other paramedical staff.

The Medical English course is also designed to help you cope with all kinds of medical readings from case notes to journal articles and medical textbooks.

The course will also help medical students who are preparing for an elective attachment in an English university as well as medical professionals preparing to work in an English environment or taking part in a conference conducted in English.

**Course materials are Cambridge or Oxford certified*
