Why Choose Escuela Bellavista?

Experience and Quality

Escuela Bellavista has been providing world-class language training to students from all over the globe since 1987. Our teachers all have degrees in languages and are dedicated to providing outstanding language instruction to each and every one of our students.

Proven Methodology

Keeping in mind that the ultimate goal of our students is to feel comfortable speaking and understanding Spanish, we have developed our own teaching materials which focus on a conversational approach to teaching the language.

Location

Our language center is located in Providencia, one of the most central and exciting areas in the city. Our school is just a few meters from the metro.

Facilities

Escuela Bellavista offers comfortable facilities (wi-fi, coffee break, 12 classrooms in 2 floors) in a central location close to everything. You can expect a warm and friendly atmosphere along with professional service at our school.

Programs For All

From undergraduate students to executives, young to old, our flexible course offerings allow us to meet the needs of any student.

Small Class Size

We know how important it is to practice using the language that one is learning. That is why the maximum number of students in our Group course is eight (8). This allows each student more speaking time in class – an important factor in language learning.

Diversity of extra activities

Chile is very rich and diverse in terms of nature and landscapes and we want our students to have the opportunity to enjoy as much as they can! So besides our weekly extra activities, we also arrange weekend trips (at an extra cost) to places like the beach, the Andes mountains (for trekking or skiing), rivers (for rafting), etc.

Free oral practice sessions

Included in all of our programs are exciting and interesting afternoon sessions for oral practice which happen twice a week at the school, and all students are welcome to attend.

Host Family and Hostel Packages

We offer packages that include all services (classes + accommodations + transfer). All of our host families and hostels are carefully selected by the school staff in order to provide the student with comfortable, friendly, and safe accommodations. We know that hospitality is a large part of the student's experience with us, and we want it to be the best possible.

COURSE TYPES

INTENSIVE 4 LESSONS PER DAY 20 PER WEEK*

Having students speak in class is a core aspect of our methodology. That's why there is a maximum of just eight students in a group class, who are separated by levels after being evaluated on the first day.

*Each lesson is 45 min.

SUPER INTENSIVE 6 LESSONS PER DAY, 30 PER WEEK*

A combination of a Group course with an extra 90-min class per day. This course doesn't only improves general communication skills, but in the private lessons, the curriculum can also be tailored to meet your specific needs or interests.

*Each lesson is 45 min.

PRIVATE AND SEMI PRIVATE INSTRUCTION

You can learn at his/her own pace.

You can choose the number of hours to study per day.

You have flexibility in scheduling classes, morning or afternoon.

Each class is 90 minutes.

METHODOLOGY

We offer a modern, conversational approach to language learning.

In our classes, you will learn to speak Spanish more quickly and easily than you may expect. The goal of our methodology is to make you comfortable using their new language in practical situations encountered in everyday life, such as travel, conducting business, meeting people, using the telephone, meetings, participating in a conversation effectively, etc. With our communicative and dynamic approach, you will rapidly find yourself speaking your new language from the first day of class.

In addition to a methodology that uses a communicative approach, our teachers all have university degrees and have received extensive training in how to teach Spanish as a foreign language.

Levels

Escuela Bellavista bases its language levels on the Common European Framework of Reference for Languages (A1, A2, B1....)

Evaluations and Certificate

All students take both written and oral evaluations when they start their program to determine their level, and throughout the program the teachers at our school are constantly evaluating students' progress. As proof of your efforts you will also receive a certificate at the end of the course. This states the language you studied, the duration of the course and your level.

PRINCIPLES OF OUR METHODOLOGY

Avoiding Translation in Class

Our aim is that you and the teachers speak only in Spanish in class, so we try not to use other languages in the classroom and this stimulates the student to start thinking in Spanish. Students are always surprised at how easily they learn!

Emphasis on Communication

Our methodology focuses on speaking and listening. Grammar, reading, and writing are all included, but we teach it through a very practical approach without being tedious, boring, or repetitive. We believe the key to learning a new language is communication.

Course Books developed by Escuela Bellavista

Our books have been developed by us and the vocabulary presented in them has been studied and tested to be introduced gradually and systematically. This process helps you learn to communicate more effectively and with greater ease.

ACCOMMODATIONS

HOMESTAYS

We highly recommend that you take advantage of homestays in order to practice what you learn in class – key to language learning! It is also the best way to learn about the local culture, food, and people. For these reasons, the majority of our students stay with one of our excellent host families.

Host family accommodation at Escuela Bellavista includes the following:

- Breakfast
- Private room (unless otherwise requested)
- Shared bathroom
- Wi-fi

ACTIVITIES

EXCURSIONS

In keeping with the idea that students learn a language through practice outside the classroom, Escuela Bellavista offers many activities in the afternoon! One afternoon per week you will have the opportunity to go on a tour to a local point of interest in Santiago as part of the program. The excursion usually lasts about three hours, and is guided by one of our teachers.

ACTIVITIES

In addition to excursions, Escuela Bellavista offers oral practice sessions, and occasionally we organize wine tastings and ceviche preparation classes! And don't be surprised if a school party is organized for a holiday, saint's day, or a birthday!

ACTIVITIES

DAY TRIPS OUTSIDE OF SANTIAGO

Together with a partner agency, we organize weekend day trips to places like Viña del Mar, Isla Negra, the Andes mountains, etc.

These aren't included in the regular programs but have a much lower cost than you will find with regular tour operators. The idea is to offer you the opportunity to explore Chile's exuberant landscapes at low cost while spending time with other students.
