WHAT IS IELTS?

IELTS, the International English Language Testing System, is a globally recognized English language test. IELTS uses a 9-band scoring system to measure Listening, Reading, Writing and Speaking skills. IELTS scores provide a standardized measure of English proficiency for people who want to study or work in environments where English is used as a language of communication.

PROGRAM DESCRIPTION

The IELTS Preparation Program is designed for non-native speakers who would like to take the IELTS exam. Our program begins with an initial IELTS practice test to assess students' abilities. The instructor then focuses on meeting each student's individual needs throughout the course. Students will regularly practice the different components of the test, focus on specific modules of the exam in-depth (listening, speaking, reading and writing) and also learn test-taking strategies.

- Learn important test taking techniques to achieve maximum scores
- Understand how to develop well-written paragraphs and essays
- Gain confidence in speaking and pronunciation
- Get practice at IELTS listening questions in our student computer lab
