

# ICE Academic English '24

Language Skills for UK Universities

## Academic English Invest in future success!

Tailored to meet the needs of ambitious, international under- and post-graduates, this course offers a comprehensive and immersive experience of Academic English (EAP) for university success. Students will refine their communication abilities, master academic writing techniques, and expand their vocabulary to thrive in university environments. All tutors will be minimum level 7 qualified and have specific experience of teaching EAP.

# Get University-ready!

Speaking English as an additional language and studying at a UK/US/AUS university can be a very daunting experience. Our Academic English course provides students with the skills and the confidence to succeed in English at under- and post-graduate levels.

In addition to the language required to communicate effectively at university level, students learn study skills, organisational skills, stress management and are familiarised with other aspects of university life such as accommodation and a Uni social scene.

Students will learn academic vocabulary from our specialist tutors and tackle the key challenges in academic speaking, reading, writing and listening along with grammatical structures that appear in academic texts.

In the Writing component, students learn to produce accurate and effective course assignments and reports, examination essays and dissertations. The spoken component includes delivering presentations, taking part in class discussions and building a persuasive argument. The course is also excellent opportunity for students to familiarise themselves to a native English voice to better understand lectures.
