# Willkommen in Münster

School building at Servatiiplatz

With more than 60,000 students, Münster is one of the largest university cities and one of the most popular places to study in Germany. Young people determine the rhythm of life in the city and create a special, lively atmosphere.

The bicycle is the most important means of transport here and has become a symbol of the environmentally conscious city. The picturesque historic center of the 1200-year-old city with its churches and museums presents charming contrasts with the modern architecture. The promenade surrounding the city center, parks and the Aasee lake invite you to enjoy the city at its fullest.

KAPITO is located in Münster where German is spoken without an accent. The school follows the principle: the students are the center of attention. From the first day to the final certificate, we make sure that your stay in Münster is a success.

German courses have been the focus of our work for over 30 years. Our school is located in the city center, close to the historic Old Town. Our experienced team consists of 30 dedicated and qualified teachers. Their continuing education and their enthusiasm for teaching help to ensure our students' success in class.

## Cultural and social program

In addition to lessons, the school offers an attractive cultural and leisure program, which is organized and accompanied by our leisure team. The program includes city tours, excursions to other cities, bike tours, international meetings, movie nights, museum visits, sports, pub crawls, and much more. This cultural and leisure program is included in the course price (for trips to other cities students pay a small contribution).

## Teaching

The lessons are clearly structured and are based on the European Framework of Reference for Languages. In the small, internationally composed classes, the focus is always on language practice, speaking and understanding of the individual participant.

KAPITO stands for quality: teaching and school organization are regularly inspected by independent inspectors. The school is a member of the "International Association of Language Centres - IALC" and the FDSV (Fachverband Deutscher Sprachschulen).

## Course levels and exams

KAPITO offers all levels throughout the year, based on levels A1 - C1 of the European Framework of Reference for Languages.

Before the course begins, the German language skills of each participant are tested in order to enable optimal learning success through precise placement. After completing the course, participants receive a graded certificate.
