# STUDYING WITH CONFIDENCE

No matter what's happening in the world, you can feel confident when you book with Kaplan. Studying a language is one of the most impactful things you can do for your life, your career and self-development, and we won't let anything get in the way of that.

Over many years of change, Kaplan has remained stable and committed to delivering excellent language tuition to our students. We have in the past faced challenges which have affected our students' ability to travel. This year, we've introduced several new measures to ensure your language learning experience is as safe, secure and enjoyable as ever.

## ENHANCED CLEANING

We have enhanced our cleaning regimes in all our schools. Hand sanitizer is available for all staff and students, and we're carrying out extra deep cleaning to make sure our schools are as safe as possible, with special attention being paid to heavily used items.

## PROTECTIVE GEAR

The safety of our students and staff is our biggest priority, which is why we're ensuring everyone is wearing the necessary protective gear. Whenever needed, our staff will wear face protection. Our teachers wear visors in class so students can still see their mouths to help with understanding their new language. Other staff in school wear face protection whenever needed, and we have installed protective screens where necessary.

## PHYSICAL DISTANCING

We want everyone to feel comfortable and safe, while still providing an immersive learning experience. We've altered classroom layouts to make it easier to keep a distance, while staggered timetables allow for different arrival times. We have one-way systems in place where it is possible to do so, and signage around the schools reminding everyone of our safety protocols. We'll introduce more outdoor trips to our social program, working with providers who offer safe, physically distanced activities in line with local government guidance.

## ONLINE LESSONS

New for this year, our online lessons are designed to give you the same Kaplan-quality language tuition as you would receive in-person. Delivered by our qualified teachers, our lessons are combined with a unique package of study clubs and online resources, as well as a virtual social program. If unforeseen circumstances prevent you from traveling to one of our schools, we can offer you online lessons until in-school learning is possible again.

## FLEXIBILITY

We know that this is a challenging time, so we're committed to being as flexible as possible with your studies. While we can't predict certain circumstances, we're always here to help and we'll do our best to accommodate your needs. If you have any concerns about your course, or need to make changes in advance of your arrival, please speak to one of our trusted advisors to find out what options we have available to make your experience as safe and secure as possible.

We're striving for as much normality as possible. We truly believe that the world is a better place when people can travel and communicate freely. As a major, well-established language school, backed by a large parent company, the Graham Holdings Company, you can feel confident that booking a language course with Kaplan is always a smart choice.

### BOOK WITH CONFIDENCE

If your booking is affected by government-imposed travel restrictions, school closure or symptoms of COVID-19, you can defer to any date in the next 18 months at no extra cost.

### WE'RE PASSIONATE ABOUT LANGUAGES

Speaking another language empowers you to explore new places to and excel in ways you may never have thought possible.

### DID YOU KNOW?

- Bilinguals can focus more easily and multitask more effectively than their monolingual counterparts
- More than a third of positions advertised by Bank of America in 2015 were for bilingual workers
- Being bilingual can improve your creativity – having two or more words for one idea can improve elasticity of thinking

When you can speak another language, the future you want is within your reach. And with Kaplan, you'll receive guidance and support every step of the way.

## 80 YEARS OF EXCELLENCE IN EDUCATION

As one of the world's largest and most diverse education providers, we've been helping students to achieve outstanding results for over 80 years. Founded by Stanley Kaplan in 1938 to increase access to education, Kaplan now has operations in 28 countries and offers education and training to more than one million students worldwide. Finally, Kaplan benefits from the financial stability that comes from being part of the large Graham Holdings Company, formerly The Washington Post Company, so you can rest assured we will be here to welcome you when it's time to study.

# OUR STUDENT SUCCESS STORIES

**Reimi Kubo**  
Japan – Studied in the USA

“ I’ve always wanted to study English, and when my husband got relocated to the USA, I took that opportunity to enroll at Kaplan International. When I first arrived my English was very poor. I couldn’t speak or understand anything. I’d forgotten everything I learned while in school. Now my grammar is improving, and I can speak more naturally and with greater confidence.”

**Mirko de Martini**  
Italy – Studied in Dublin

“ I decided to study English because nowadays it’s an important language to know. It’s really useful if you want to work in a multinational company. But being here I understood that the most beautiful thing is that with English you can communicate with everyone. You are not stuck with your nationality – you can go beyond that. When I decided to study English, it was only for career reasons but now that I’m going to finish my experience, I think that it’s more for communication.”

**Alejandro Contreras**  
Venezuela – Studied in Bournemouth

“ What I like about my teachers is they always try to speak with me as if I was another British person. They treat me as someone who’s walking in the street and they come across and talk – that’s quite challenging, but I really like it. I like the way they want me to improve every single time and they support me in every doubt I have, and this is awesome.”

**Emoke Zakor**  
Romania – Studied in Brisbane

“ Since I have been here, my English has improved very much. When I started I wasn’t confident – I was nervous when I had to speak – but now everything is better. Now I hope I’m going to Cambridge and after I would like to do the IELTS as well, so I’m really excited.”

**Luis Felipe Tomaz de Souza**  
Brazil – Studied in Montreux

“ I will remember this experience all my life; I have great memories from it. The teachers and staff of the school are exceptional. Not only did I learn French, I also made friends for life, who are like family now. Thank you for giving me this opportunity!”

# OUR RESPONSIBILITY AS A GLOBAL EDUCATOR

Since its founding more than 80 years ago, Kaplan has been a beacon for expanding educational access. In the US, where Kaplan is headquartered, the Kaplan Educational Foundation (KEF) has been supporting students from economically and socially disadvantaged communities to progress to top US universities since 2006. In other parts of the world, Kaplan International partners with charities and non-profit organizations on a range of initiatives that help remove barriers to education and career development.

## HELPING TO EDUCATE GIRLS IN AFRICA

We’ve been working with Plan International UK since 2013 to help deliver better educational opportunities to girls in Sub-Saharan Africa. In Senegal, Kaplan’s funding has helped Plan International to support 1,000 girls aged 9-16 across 16 schools in improving their education. In Sierra Leone, Kaplan has been working with Plan International to give 483 young women the chance to become teachers, following guidance by the Forum of African Women Educationalists.

Zuliana, one of our former Kaplan students, had the opportunity to volunteer with Plan International in her home country of Sierra Leone and visit some of the schools supported by Plan’s work. Zuliana said:

“ Spending time with Plan International in Sierra Leone was a life-changing experience, which changed my perspective. Although I’m Sierra Leonean, I never really knew about what was happening around me, or the daily struggles that some people go through, especially in the provinces. The Student Teachers have inspired me to be the best person I can be, and to never give up hope. Everything about my visit was empowering.”

## SPONSORSHIP AND VOLUNTEER TEACHING

Working with charities such as RefuAid, we have sponsored refugees from Syria and other conflict zones to study English at our schools. We also provide licenses for our online learning materials to groups teaching refugees and asylum seekers.

## CARING FOR LOCAL COMMUNITIES

We run regular volunteering and donation drives for disadvantaged communities and offer our facilities to charities and local schools. This not only benefits those in need, but also helps our students to build connections within an English-speaking community. Last year, we provided food and clothing to local homeless shelters and collected sanitary products and toiletries for victims of domestic violence.

# LEARNING FRENCH AND GERMAN WITH ALPADIA LANGUAGE SCHOOLS

Alpadia has over 20 years of experience in providing Swiss-quality language tuition mixed with a healthy dose of adventure and entertainment. Our effective and dynamic teaching methods allow our French and German schools in Berlin, Lyon, Freiburg and Montreux to boast an average exam success rate of 97%.

## HOW WE TEACH

Our approach to teaching languages is based on achieving fluency for the real world – not on simply completing exercises and recalling vocabulary in class. Following the CEFR levels (Common European Framework of References for Languages), we use various recognized FLE (French as a Foreign Language) and DaF (German as a Foreign Language) methods in our lessons, as well as referring to real-world resources like the news, films and local festivals taking place in our destinations.

## OUR SKILLED TEACHERS

We choose our teachers based on their degree-level qualifications and for:

- Their experience in teaching a foreign language abroad
- Their enthusiasm and ability to create exciting and interactive lessons
- The attention they pay to each student
- Their lively and personalized teaching style that guarantees long-lasting progress

## YOUR PROGRESS

Our pre-arrival online language placement test allows you to begin your French or German course at the level that's right for you. Once you've started your course, you'll complete a test every Friday to check your progress. You'll also fill in a weekly feedback form which will include your teacher's comments about your work so far and potential areas for development. When either you or your teacher feel you're ready to move up a level, you'll talk about it together and decide on the best way to move forward with your learning.

## LANGUAGE IMMERSION

Learning a language happens as much outside of the classroom as it does inside it. Our wide variety of after-class activities and trips to nearby cities, museums and attractions provide the perfect opportunity for you to apply what you've learned to real-life situations, all while making new friends and exploring an exciting destination.

## WORKSHOPS AND MASTERCLASSES

To help you adjust to living abroad and prepare you for what you might encounter after you've finished studying with us, we hold weekly workshops and masterclasses on how to:

- Open a bank account
- Set-up insurance policies
- Write a CV
- Prepare for a job interview
- Fill in a tax declaration form
- Give an oral presentation
- Prepare for an academic exam

“

I was in Lyon for a month and I enjoyed myself here! I chose this destination because Lyon seemed to be an ideal city to live and study and it's absolutely true! There are many things to do (very interesting museums) and it's also a perfect city to go out at night with friends from the school. I stayed with a host family and I think it's the best accommodation option to practice French. The classes were really interesting and useful - the teachers were very competent and on top of that I got to meet many students from all over the world.

Sara, Italy  
Studied in Lyon

I had received good feedback regarding the French courses organized by Alpadia. As my main goal was to improve and perfect my French, I decided to register and indeed was greatly satisfied with the course. The classes were very motivating, fun, enriching and I learned a lot. The teachers were really nice as well! I have always been passionate about French and France in general, so I was really happy to be able to discover one of the loveliest cities in France: Lyon! I thought that Lyon was a small city that I could visit in a few days, however I realized that I was wrong! Lyon is a really pretty city where everything works really well. There are lots of things to do, from culture to nature, sports and riverside walks - the gastronomy also took me by surprise! Here is perfect!

Mari, Japan  
Studied in Freiburg

My arrival in Freiburg was smooth, because the city is close to Frankfurt. I reached the city by long-distance coach – that's cheaper! The apartment was really tidy and the lady had furnished everything really nicely. The location was good too. You can reach it easily using the tram. Freiburg is a nice city – it's neither too big nor too small and you can take many trips from there. I like the life here a lot, that's why it's my second time here. The classes depend a lot on the teacher. We are having a lot of fun learning grammar and having the chance to speak a lot and to discuss with the other students. I like it! There are many Swiss students here, but luckily they talk German to me. We get along very well together, especially now that I am not afraid of talking anymore, even though my German is not perfect yet. After my language course I would really like to find a job in Germany. Next week I even have a job interview in Bavaria!

# HOW MUCH PROGRESS CAN I MAKE?

We'll assess your language proficiency before you start your course with an online placement test. If you're learning English, we'll assess your level using KITE, our highly accurate and adaptive testing system. Understanding your current level and areas for development allows us to place you in the correct class level and fine-tune your learning experience. # THE KAPLAN FAMILY

Over 80 years ago, Stanley Kaplan, aged just 14, began tutoring his peers in the basement of his parents' home. As a Brooklyn-born son of immigrants and a first-generation college student, Stanley believed in the power and necessity of education for all. He believed that success should be based on merit - not heritage, wealth, or social status. He cared about enabling people to access education, regardless of their background, and he saw standardized tests as a way to open doors. But Stanley was preparing students for far more than just tests - he was preparing them for a lifetime of success.

Stanley's humble beginnings marked the beginning of Kaplan as we know it today. Now, the Kaplan family encompasses a wide variety of companies, all founded on the belief that everyone should have access to a good education. Whether your goals are related to medicine, finance, business, or a range of other subjects, we can help you achieve them.

“

My host family was incredible. They were interested in us, asked questions, we were able to eat with them, and they picked us up after the different outings. They really took care of us and made sure that we felt comfortable. This allowed us to practice our English even more and to improve even quicker. In my opinion, living with a family only has benefits.

”

Chloé Truelle, France

“ The school is multicultural. It is a place where different people from all over the world meet, having all the same goal: to study English. English then at the same time is the bond that connects them as the students are also forced to speak English to understand and get to know each other. This is what creates a vivid, friendly and talkative atmosphere, which I like very much. ”
