KEF USA & College Partnership

KEF USA partners with the largest community college in Florida in several programs. Students receive their English education at the college in the mornings and the KEF teachers deliver the workshops in the afternoon. The KEF staff remains with students 24/7 and ensures all goals and program expectations are met. This program prepares students for a smoother and more seamless transition from high school in their country to college in the U.S., improving retention in post-secondary education settings.

Accreditation

The English programs are endorsed by the Commission of Accreditation of Programs of the English Language (CEA), which is recognized by the Secretary of Education of the United States as a National Accreditation Agency of Programs and Institutions of English Language. The process of being accredited in The United States through the CEA needs to be met with certain rigorous standards, Accreditation is not an easy process and the programs accredited by CEA are among the best, not only in the US but also throughout the world.

KEF USA SUMMER CAMPS

Intensive English ESL programs for students 10 years and older. Effective testing and 12 levels of English ensure a challenging experience for all. This is a well-balanced varied program of classes, workshops, cultural activities, sports, and visits to the most famous theme parks in the world.
