RATED AS BEST BUY CENTRE & TOP QUALITY HOMESTAY PROGRAMME IN LONDON

## Go Create! English offers...

- > Dedicated syllabi for Go Create! Primary (7-10), Go Create! (A2 to B2) and Advanced levels, with project suited for the ability and age of the students e.g. "Design a monster" for Primary and "Creating a Brand" for Advanced. 14 projects per level - there is something for everyone!
- > Emphasis on speaking and the communicative use of language with classmates from around the world helps students to increase their confidence.
- > Blended Learning: One hour language focus (e.g. grammar) plus one project per 3-hour lesson - serious study plus creativity are combined to improve students' English and have fun learning.
- > Chance for students to develop new hobbies and interests: e.g. learn how films are made and make one yourself!
- > Dynamic, qualified teachers: our teachers have a range of creative backgrounds, some are film makers, musicians, songwriters, actors etc, and they want their students to enjoy English and develop a new passion at the same time!
- > Accurate level-testing: After students have been welcomed to the school (and told a few rules!) they sit our grammar and speaking tests and complete a needs analysis. Right from the start, we make sure we get to know our students as both learners and people. We place students according to language level, but we also take nationality and age into account.
- > Individual Certificates: End of course certificate showing the teacher's comment and the student's level of English in different skill areas (Reading, Writing, Listening, Speaking, Grammar, Vocabulary, Pronunciation).
