Teaching Style

At Live Language, the students are at the centre of the classroom. We don't believe that the text book should lead the class. We **adapt the course materials** to suit each individual in the class, so all our students know that they are learning something that they need in every class. This approach has helped our students **make real progress** and **achieve their goals**. We also believe in helping our students become **independent learners** so our classes show different ways of studying outside class. This means that our students learn the skills they need to continue studying after their course with us.

Student Support

We always do our best to help our students in any way we can. We understand that living in a different country can be difficult. We make sure that you have extra support if you need it. We can help with additional support with your language, or accommodation, or even just a chat if you are feeling lonely. If you are planning on studying with us for an extended period, we offer free orientation classes to help you cope with your new life in the UK.

Our commitment to you

Student success is our passion, therefore we do everything possible to help our students progress.

But it's a **team effort**. The most successful students **maximise their progression** by attending all their classes, doing the homework and speaking English at all times while at the school.
