Whether you're a recent graduate or a professional with years of experience, teaching English abroad is one of the best ways to build your career skills and add value to your university degree.

Teaching English to non-native speakers requires specialized knowledge, expertise, and techniques. This takes learning, practice, and feedback. TEFL certification programs teach you the skills and methodologies you need. You also get important feedback on your teaching style, so you feel confident in front of an ESL classroom. During your TEFL course, you learn what it takes to be a professional ESL teacher anywhere in the world!

*With job placement guarantee!*

**Get international experience**—Living and working abroad shows you have global perspective. It shows you're flexible and able to adapt.

**Teach and learn**—While you teach English, you immerse yourself and integrate into the culture where you're working; and in your free time you can study a second or third language.

**Make an impact**—Inspire others to learn English as second language. Be the teacher who helps young people pass international exams like the TOEFL, IELTS, GRE, and GMAT. Help people improve their professional and academic opportunities. Change people's lives!

**Develop your career**—The experience you gain by teaching English abroad is valuable and applicable to a number of fields. ESL teachers follow-on to careers in education, tourism, journalism (travel writing), law, human resources, college admissions, and government work. You also build an important global network of friends and colleagues.

**Change your life**—Find your life's passions. Gain self-insight, renewed perspective, and build your positivity and optimism.
