**Learn Polish**  
**Sopot School of Polish for Foreigners**  
**est.1990**

I would like to present the offer of Polish as a foreign language courses. If there are foreigners among your employees, we may be able to help.

The Sopot School of Polish Language for Foreigners is the institution with the most experience in the country in the organization of Polish as a foreign language course, since it has existed since 1990. We are the only institution in Pomerania run under the tutelage of the Ministry of National Education. Over the past years, we've had the pleasure of educating individual students from around the world, as well as conducting courses for companies and institutions. Our listeners included volunteers from the American Peace Corps, numerous diplomats, officials and translators working in the European Parliament and the premises of the European Commission.

We operate throughout the year. We have a fully qualified, great teaching staff who know foreign languages. We offer courses in small groups at all levels. We teach in a pleasant and friendly atmosphere. We also organize individual courses and special classes tailored to the needs of the client along with the journey.

We currently run courses in the morning and evening at our headquarters. Morning classes take place every day from 9.00 to 13.00, while evening classes twice a week for one and a half hours - days and meeting times are to be individually determined. We enclose the current price list of our courses for individual clients. We offer discounts for group applications.

You're welcome! For more details please contact:
