These courses are structured for students who want to study Italian in an alternative way. The idea is to learn Italian not only in the classroom but around the city where students can immediately acquire the basic knowledge of the Italian language thanks to the real-life situations (go to a bar to have a coffee, go the weekly market, go to museums). This kind of lessons are used primarily to implement immediately the concepts that are acquired on the first day when there will be a brief knowledge and teaching some basic words.

The cost is 200 € per person.
