GENERAL English

Our focus is to improve your **confidence**, communication, and overall fluency.

Everyone from a basic user can study our General English course, with classes every weekday morning for 3 hours. We will help you to improve in speaking and understanding.

You will work with other students and your teacher every day to practise and learn. This is an interactive course that will help you to use English in your normal life!

We use lots of modern books, websites, and tools because we want your lessons to be exciting and related to your life. We also use Cambridge exam work to make sure you are improving every week.

Every month you will have a progress test, a cultural trip, and an exciting project day as well as normal classes.

You will have more than one teacher. We believe more collaboration means more stimulation and more learning.

“I really like the way the teachers created the different lessons. Very original – every class was different with new vocabulary.”
