

Social Activities

We arrange a programme of **cultural activities and excursions** to give a balance of sightseeing, cultural visits, sports and social events. The school offers a wide range of supervised activities, all designed to encourage further Italian practice, in the afternoons, evenings and, in summer, at weekends. Some are organised by the school, others are organised by friendly and experienced tour-guides.

After class, you can relax in the wonderful **surrounding countryside**; you may wish to go **horse-riding**, or discover the beauty of the **nature** of our mountains.

The town has a charming **swimming pool** and all the **spas** offer **massages**, **thermal pool** and other treatments.

Information on the social programme is displayed weekly on the notice board at the school and includes the description and cost of the activity.

As part of the course, we organize a social programme including:
