## Course Objectives

### General Course

By following a General English Course, students will increase their accuracy in grammar and will increase their competence and confidence in the skills of reading, writing, speaking and listening.

### Intensive Course

Students following the Intensive English Course follow the same programme as those in the General English Course, with the addition of a 6-hour negotiated syllabus. The aim here is to fill in gaps in the students' knowledge and expertise and to address students' particular needs.

## Types of Courses

### General & Intensive Courses

Our General and Intensive courses are designed to meet your language needs. The General Course has 15 hours of teaching timetabled per week, and the Intensive Course has 21 hours. Before you book, tell us what you want to achieve and we'll find the course for you.

### General/Intensive Course PLUS

The General/Intensive Course PLUS suits students with limited time to improve their English for work and study. This course is perfect for business people and mature students.

### Summer Vacation Courses

Using the summer holiday as a time to learn English is a very popular choice for students. As well as a high standard of teaching, you can enjoy Bournemouth at its very best in the summer weather.

### Examination Courses

You can use your time with us to gain an internationally recognised language qualification. If you plan to enter higher education and widen your career prospects, our Examination Courses are for you.
