"My stay in Cadiz was nothing less than absolutely amazing. In my opinion, considering the great teachers of SIC, as well as the beautiful city, crazy nightlife and amazing beaches of Cadiz, there is no place better than SIC to learn some Spanish and experience the warmth of the Spanish culture".

Escuela Internacional de Español [sic], was founded in 2003. Our school offers a broad variety of classes, a flexible schedule, and a wide range of trips, excursions, sports and social activities. You can choose from among more than 10 different Spanish courses at five different levels:

from absolute beginner with no Spanish knowledge to very advanced levels. At Spanish in Cadiz, you are placed in a class according to your level and needs. There is a limit of seven students per group, so the learning rate is optimized to suit your needs.

OUR LEARNING METHOD...

Ever since its foundation, Spanish in Cadiz has strived to establish innovative teaching methodologies to optimise the learning of Spanish. We conceive Spanish language learning from a communicative, integral approach, and thus not merely the transmission of concepts. We are oriented towards the development of new abilities and aptitudes in our students.

We have developed an interactive methodology to encourage not only the learning of the Spanish language, but also its assimilation. Our method is structured in different levels to enhance the acquisition of linguistic and grammatical aspects of Spanish, but also the culture and the more subtle ways of communication.

OUR PROGRAM

Our Program is based on the premise that every student is an individual and will benefit most from a language instruction program customized to their unique needs. Before beginning classes at Spanish in Cadiz, students are given a Spanish language skills test and an interview.

Grammar, vocabulary, reading comprehension, speaking and listening comprehension skills are evaluated. Students are then assigned to one of 5 levels comprising our study programs: beginner, elementary, intermediate, and advanced and "Perfeccionamiento".

As the students skills improve, they move to higher-level classes and greater challenges.

The Spanish in Cadiz team is available to lend advice and find solutions along the way. Students are encouraged to move forward as soon as they believe they are able to.

Supplementary tests are used to document the milestones in a student's progress.
