Program

English teachers in this program are native speakers from the UK, USA and Australia.	Upon arrival, students' proficiency in English will be tested and they will be divided into groups according to their levels.	English school program based on the book of Cambridge University Press, Face2Face (fully compatible with the Common European Framework of Reference for Languages), also based on the communicative approach, and drawing on the best of current thinking and practice, face2face prepares students for real world communication and gives them regular opportunities to evaluate their progress.	The main objective of the project is to give young people a chance to practice English and improve their language skills. For that, there is a strong focus on listening and speaking with an emphasis on 'real world' language for social situations. The project also allows students to learn more about the culture of an amazing country	The project has wide cultural and social elements – excursions, visits to various organizations, meetings with interesting people, leisure activities that enable students not only to improve the English language skills (the cultural program is also conducted in English) but also learn a lot about the country, in which education takes place!	Classes will be conducted 5 days a week and will last 4 academic hours.	Besides lessons, The Hague is one of the international centers for the UN and other international institutions, where we will find the International Court of Justice, International Criminal Tribunal, International Organization for Migration and a lot of other UN-related and other international organizations.
